LAIRD GIVES CORRECT AGE.

Carnegie Says He's 79 and Wilson's Mexican Policy Is Wrong.

New York, Nov. 25.—"This life is such a heaven that I wish I could stay here forever. If I could get an option on life I would allow you to name your price and not squabble over it."

This thought was expressed by Andrew Carnegie today while celebrating his birthday at his Fifth Avenue home. Mr. Carnegie revealed the fact that he was born in 1834 instead of 1835 as had always been supposed and asked the newspaper men to say he is seventy-nine instead of seventy-eight.

As to the Mexican situation the steel magnate believes that President Wilson should either recognize Huerta or else intervene right away.

STRIKE OF 12,000 MEN.

Employees of General Electric Company Walk Out of Shops.

Schenectady, N. Y., Nov. 25.—A strike of 12,000 workmen was called at the plant of the General Electric Company this morning. The strike resulted from the action of the company's officials in "laying off" two union leaders together with 1,500 other men. The union men at once protested.

The officials said they would try to put the union men to work in some other department or plant of the company, but that they could not give them their old jobs back. The labor leaders refused to accept this compromise and issued the strike order.

NAVY FOOTBALL FAVORITE.

Odds Are 10 to 7, and All Available Seats Are Sold.

New York, Nov. 25.—The Navy football team today rode a 10 to 7 favorite in the early betting over their Army rivals, when they meet here Saturday in the blue ribbon event of football.

Every one of the 4,000 seats erected in the Polo Grounds has been sold. About 25,000 tickets went to the Army and Navy officials and students, for distribution among their friends and relatives, leaving less than 5,000 for public sale. These were subscribed for weeks ago, and currency and checks are being returned today to thousands of persons who sent them with requests for tickets. Few tickets have fallen into the speculators' hands. Offers of from \$50 to \$100 for a pair of seats for the game have found few takers.

NUDE BEAUTY BATHS ADVISED.

Excerpts from Banned Book Are Read to Court.

Chicago, Nov. 25.—"Princess" Olanoff Zar Admetus, author of the book, "Nude Beauty," for the circulation of which he is now on trial on a charge of sending obscene matter by express, was read to the jury today. Some excerpts are:

"To derive the full benefit of our studies we request our pupils to take seats upon the floor, crossing their limbs. Every morning and evening the body should be aired, exposing it to the sunlight, entertaining the noblest ideas of admiring our own body."

"The man who becomes persistent in his declarations of love for you is not 'love sick,' but needs medical treatment. 'Oriental women are the most beautiful in the world, for the reason they walk in the air in a perfectly nude condition for several hours each day.'"

TWO SPEECHES MADE ON CURRENCY BILL

Senators Hitchcock and Shafroth Discuss Features of Glass Measure. President Is Praised.

NEWLANDS SPEAKS TODAY

Two speeches yesterday were made on the currency bill in the Senate.

Senator Hitchcock, of Nebraska, explained the views of the branch of the committee which reported the Hitchcock bill, and Senator Shafroth, of Colorado, close friend of William J. Bryan, and mainly responsible for keeping the words "lawful money" in the bill for redemption purposes, presented the views of the administration Senators.

Just before the Senate adjourned, Senator Newlands, of Nevada, introduced a resolution declaring a definite policy of currency legislation, which he will call up today and make the basis of a speech on currency legislation.

Mr. Hitchcock was given the closest attention. He spoke for more than an hour. It had been intimated that he might criticize the President's attitude toward the Senate in the matter of this legislation, and might also pay his compliments to the caucus plan of legislation. But at the last minute the Senator from Nebraska decided to confine himself to the merits of the measure before the Senate.

In upholding his address, Senator Hitchcock declared that the currency legislation would prove to be "the most important that has been before Congress for many years."

Senator Hitchcock praised President Wilson for "bringing the matter before Congress and making banking and currency reform an administration measure. Nothing less than Presidential influence would have made banking and currency reform possible for some time."

"I yield this tribute to the President the more readily because I have frankly opposed and criticized him when he urged hasty action, which I deemed dangerous."

Senator Hitchcock declared that the Senators who had insisted on careful consideration of the currency bill had been vindicated. In their judgment, he declared, the bill as it came from the House contained "some very serious defects and some fundamental errors. Had these been enacted as they came from the House most serious consequences might have followed. The proof that the House bill needed revision is found in the fact that every member of the Banking and Currency Committee who has examined the bill voted for changes which amounted to the aggregate to more than one-half of the original measure."

Senator Shafroth devoted much of his speech to a defense of using "lawful money" for redemption purposes. He declared that there was not sufficient stock of gold to meet the demands of credit, if redemption in gold were insisted upon uniformly.

HUERTA FORCES TO LEAVE REBELS

money demanded by the rebels, though under protest, and that a receipt be taken. The rebels are demanding cash in large sums as "taxes" due from the companies. The Federals, on the other hand, are collecting an export tax on all oil sent out of the country, and orders have been issued to increase the tax from 25 cents to \$1 a ton. This latter sum is said to be a prohibitive tax, and enforcement of the order has been suspended for the present, because of the vigorous protest of the oil operators.

Enquiries made by the British Consul at Tuxpan were largely responsible for the sending of Admiral Fletcher to the oil coast, to supplement the work of Admiral Bough, it was disclosed here yesterday. The British Consul wired to the British Minister at Mexico City that it was reported that the United States was intending to land forces there for the protection of the oil properties. Minister Carden referred this to Mr. O'Shaughnessy, who reported it back to Washington. He was instructed by the State Department to deny the report. At the same time, the suggestion that the conditions warranted the landing of American forces for protecting the oil properties was so strong that it was deemed advisable to send Admiral Fletcher there to get the most competent report on the situation.

The only other phase of the Mexican situation promising any immediate development was the fighting south of Juarez. The capture of the city of Chihuahua by rebels is quite likely in case the Federals are defeated by Villa and his command.

NEW MEXICAN CONGRESS TAKES UP CONCESSIONS

Mexico City, Nov. 25.—The new Mexican Congress today took up the first of the several valuable concessions being sought by European syndicates, when the department of communications presented to the Chamber of Deputies a concession to a Belgian company calling for the construction of a 6,000 kilometer railway in various parts of the republic.

The concession has a proviso that the railroads will revert to the government in fifty-two years. Construction is to be begun immediately on the granting of the concessions.

The concession was referred to the committee on the transportation fomento for consideration. It is expected that the decision will be made in a few days, and it is possible that the concessions may be granted this week.

The House of Deputies took up the consideration of reducing by half the members' salaries, raised from 350 to 500 pesos a month under Madrazo's President. Huerta is known to strongly favor this reduction and for this reason it will probably be made.

The government is preparing to send a large number of troops from here to the Huasteca oil district to protect wells and property owned by foreign companies.

The town of Simojovita, state of Chiapas was captured today by a band of rebels under Chief Mas. Fifteen of the leading citizens were tortured and then put to death and nine young girls of the best families were carried off.

CARRANZA LOSE HOPE OF FURTHER NEGOTIATIONS

Nogales, Sonora, Nov. 25.—After waiting six days here at the border, apparently in the hope of renewing negotiations with the United States through William Bayard Hale, former Minister Francisco Carranza today joined his chief at Hermosillo, capital of Sonora.

Even Gen. Carranza has lost hope of further negotiations at present.

According to reports the general and his aide are now preparing for a vigorous campaign against points on the west coast held by Federals.

Americans arriving tonight from Southern Sonora bring reports of another outbreak among Yaqui Indians. It is believed that some 1,500 are under arms and operating from Eperanema north to near Tonichi.

ZELAYA AVOIDS ARREST BY OFFICIAL "LEAK"

Exiled Nicaraguan President, Wanted on Assassination Charge, Eludes Officers.

New York, Nov. 25.—United States District Attorney Marshall and other Federal officials today made vigilant search for Gen. Jose Santos Zelaya, the exiled former president of Nicaragua, whose extradition on a charge of assassination has been demanded by his government.

During the day it became known that Zelaya has escaped arrest through two apparent lapses of official vigilance, aided perhaps by a "tip" or "leak" close to official channels.

It became known that the message from the Department of Justice, ordering the detention of Zelaya, although telegraphed on Saturday, was not delivered to the district attorney until Monday morning.

Zelaya, who is believed to be hiding in the Hotel Hargrave, between midnight Saturday and 1 o'clock Sunday morning.

The escape of Zelaya was considered the most remarkable because agents of the local detective bureau, said to be employed by the Nicaraguan government, are supposed to have been shadowing him at the time.

Today a difference of opinion prevailed as to the present whereabouts of the former dictator. Some Federal officials professed to believe he had escaped to Canada. Others insisted he was hiding in this city, and his son, Calpurno Zelaya, agreed with this idea.

MEMBERS OF CABINET PARTICIPATE IN DANCE

Secretaries McAdoo and Garrison Glide Over Floor to Music of Marine Band.

During the wedding supper the Marine Band went to the East Room, entailing the guests thither for dancing. Former Secretary Hilary A. Herbert, who was a member of President Cleveland's Cabinet, with Mrs. Marshall, wife of Gen. William L. Marshall, and daughter of the late Senator Colquitt of Georgia, were the first on the floor.

Dancing continued long after dark, and it was fully 2 o'clock before the bride and groom got away for their wedding journey. They did not go into the ballroom, although both are fond of dancing and are good dancers.

Among the graceful and enthusiastic dancers were Secretary of the Treasury McAdoo and Secretary Garrison, both of them dancing with the Cabinet girls and the bridesmaids. Miss Mabel Boardman was also on the floor. The Admiral of the Navy and Mrs. Dewey, although they were not dancing, were interested spectators. This is one of the few functions Mrs. Dewey has been able to attend in years. Her health has been frail and has been greatly mixed at the White House.

Immediately after the ceremony, the President stepped back among the members of the official set to greet a few of the more distinguished guests.

William F. McCombs, chairman of the Democratic National Committee, he greeted as "our most recent bridegroom."

He warmly congratulated Gov.-elect Fielder, of New Jersey. He firmly clasped the hand of Speaker Champ Clark and chatted briefly with Mrs. Clark, Miss Genevieve Clark, and Miss Dorothy Harvey, daughter of Col. Harvey, who is Miss Clark's guest.

"How do you do?" he said to Miss Harvey. "And how is your father? Please give him my kindest regards."

STRIKERS GROWING VIOLENT.

Situation in West Virginia May Demand Cull for Troops.

Charleston, W. Va., Nov. 25.—With the last twenty-four hours there has been a concerted outbreak of violence in the coal regions about Paint and Cabin Creeks, where intermittent warfare between the miners and operators during the last year resulted in many deaths. The situation is so serious that Gov. Hatfield has been asked to send troops into the district and he decided today to do so unless the local police are able to restore order.
